# What is FOGO?

**FOGO** stands for  
**Food Organics Garden Organics**

A green bin and kitchen caddy will be delivered to households across Fairfield City for the disposal of food scraps and garden waste.

This bin will be collected **fortnightly**.

Your red waste bin and yellow recycling bin services will stay the **same** – same size and collection day.

## When is FOGO starting?

Residents will receive their new bin and caddy prior to their collections commencing in **June 2024**.

## Why do we need FOGO?

Did you know that **60%** of the waste we produce is organic material? When placed in the red bin, it is sent directly to **landfill**.

FOGO allows us to **divert** organics from landfill and reduce greenhouse gas emissions. These organics are turned into compost to be used in farms, parks, and sports fields.

Under the *NSW Waste and Sustainable Materials Strategy 2041*, all councils must have a weekly FOGO service by 2030.
